SUMMARY

Full-stack dev with hands-on Django, Node.js (Express) backend work — REST APIs, Whatsapp Cloud API integration, payment gateway + webhook handling, basic cloud + DB deployments. Focused on shipping working integrations fast, not theory.

WORK EXPERIENCE

Junior Developer — Radiant Software Solutions

April 2025 - Present

- Built REST API modules in Django for branch operations (CRUD + validation)
 - Integrated Whatsapp Cloud API + webhook event flow for transactional messaging
 - Assisted in payment gateway integration and deployment activities
 - Tech: Django, Node.js (Express), HTML, CSS, JS, MySQL
-

PROJECTS

- QR Code Generator (Django + HTML/CSS/JS) – generates downloadable QR codes via dynamic input (Repo link in Links section)
 - Contact-Us Email Service (Django) – takes form input → sends email to company + auto-confirmation mail to user (Repo link in Links section)
 - GTutor – Attendance Support Web App (HTML, CSS, Bootstrap, JS, MySQL)
Supported DB schema setup for student attendance tables + data mapping
Contributed to project documentation and requirement structuring
Deployed front-end on Netlify — <https://gtutornzb.netlify.app/#/>
-

EDUCATION

Bachelor of Science in Computers

Aug 2019 - Aug 2022

Giriraj Government Autonomous College, Nizamabad

- GTutor – Attendance Support Web App (HTML, CSS, Bootstrap, JS, MySQL)

Master of computer Applications

Oct 2025 - Present

Nishitha PG Autonomous College, Nizamabad

- Focusing on Data Structures and Algorithms.
-

ADDITIONAL INFORMATION

- Technical Skills: Python, Django, REST APIs, Node.js, Express.js, PostgreSQL / MySQL, HTML, CSS, Bootstrap, JavaScript, Git, Cloud Deployments (basic)
